

Random Object Throwing Competition - Cambridge 2019

The first iteration of this contest was held on the 28th June at Wilberforce Road Athletics Track.

We attempted to bring together several, non-standard throwing sports that had existing world records (welly wanging and peanut throwing), some that didn't (coconut tossing), and a few events of our own.

The results are listed in the order of the competition programme on the day.

All distances are provided in metres.
